Always B Sharp, Never Flat

My students need a bass xylophone with chromatics so they can play songs in different keys.

My Students

I love that they love to sing, dance, create, and play instruments. They love to learn and try new things. I want to introduce more music to them and to give them experiences they will never forget. They are excited and love to participate in our choir and dance teams. There are so many songs they want to play on the barred instruments and with the chromatic bars it allows the students to produce their favorite tunes while learning about music.

My Project

Mrs. Lewis

NEVER BEFORE FUNDED

Grades 3-5

Ernest May Elementary School

Las Vegas, NV

More than a third of students from low-income households ⓘ

My students are ready to step into using chromatics to change the keys when playing songs on the barred instruments.

This requested bass xylophone with chromatic add-on will be used in music class, as well as in choir for both the winter and spring programs.

Students will get to explore key changes, what sharps and flats are, and chord changes. Students will also get to explore accidentals and naturals and how to switch from both notes. They will be able to play any song in any key using the chromatic bars on the bass xylophone.

I'm excited to see where this takes my students in their explanation.

Donations to this project are now being matched, thanks to support from An Anonymous Arts Funder. Every child should have access to essential art materials and experiences. An education in the arts makes children well-rounded, engaged, and active citizens of the world. This project has been supported in an effort to ensure that all students gain from the many benefits that arts education provides.
